

## DENON® DHT-S218

### DHT-S218 Full-Range Dolby Atmos Sound Bar

The Denon DHT-S218 is a slender sound bar featuring two powerful built-in, down-firing subwoofers and Dolby Atmos to create a powerful home theater experience without a separate subwoofer. Now stream with low latency and higher quality sound via Bluetooth® Low Energy (LE) Audio.

#### HIGHLIGHTS

#### YOUR BENEFITS

3D audio with Dolby Atmos

Dolby Atmos delivers spectacular, immersive 3D audio for the perfect cinema experience. Enjoy enhanced bass, crystal-clear dialogue, and enveloping sound.

Full-range audio

With two built-in, down-firing subwoofers, dual mid-range drivers, and tweeters, you enjoy an amazing movie and TV show audio experience when you upgrade to Denon premium-quality sound.

Wireless music streaming

Easily stream your favorite music directly from your smart device to your sound bar via Bluetooth.

Bluetooth® Low Energy (LE) Audio

Pair your smartphone or tablet with the DHT-S218 to easily stream with low latency and higher quality sound than traditional Bluetooth.

4K HDMI with eARC

Send the audio from the streaming apps built into your smart TV to the sound bar with 4K UHD HDMI (1in / 1out with eARC) via the included HDMI cable. HDMI also supports VRR and ALLM.

Denon Dialog Enhancer

Denon Dialog Enhancer improves dialogue clarity with three different modes—ideal for movies and TV shows. Turn up the dialogue without having to adjust the overall volume.

Multi pairing & multi point

With multi pairing, you can pair and connect to multiple source devices, such as smartphones, tablets, and laptops. With multi point, you can seamlessly switch between multiple Bluetooth devices without having to manually disconnect and reconnect.

Low-profile design and wall-mountable

At 2" (60mm) tall, the Denon DHT-S218 can be placed in front of your TV without blocking its bottom edge or can be easily mounted.

Easy setup and user experience

Quickly connect to your TV with the supplied HDMI. Once connected, you can seamlessly control the sound bar volume with your TV remote.

Sound modes for any occasion

With four different sound modes—Movie, Night, Music, and Pure—you can choose the perfect mode for any occasion.

Pure mode

Eliminates surround sound processing and other adjusted characteristics for pure music listening.

Over 110 years of audio innovation

Founded in 1910, Denon enables the moments that matter through the relentless pursuit of quality, innovation, and audio performance.

**SINCE 1910 | DEFINING AUDIO EXCELLENCE**

#### Dolby Atmos

Enjoy immersive 3D sound for the perfect cinematic experience. Feel every dimension in Dolby Atmos.

#### Dolby Vision

Dolby Vision is a stunning HDR imaging technology that brings extraordinary color, contrast, and brightness to the screen. See what you've been missing.

#### Bluetooth LE Audio

Connect and play music directly from your smartphone, tablet, or other compatible device with low latency and higher quality sound than traditional Bluetooth.

#### 4K

Cinematic TV with nuanced contrast, detailed imaging, brilliant colors, and depth. Supports 4K TVs for video as detailed as it sounds.

#### eARC

HDMI input and output features Enhanced Audio Return Channel (eARC) to receive the highest quality audio from a single cable connection between the sound bar and your TV.

#### Pure Audio Mode

Eliminates surround processing by removing any adjusted audio characteristics for sound in its purest state.

#### Denon Dialog Enhancer

Choose from three distinct levels of enhancement to reproduce clear, crisp dialogue and never miss a word of your favorite movie or TV show.

#### 110+ years of firsts in audio technology

Founded in 1910, Denon has a deep heritage of "firsts" in audio technology—from Japan's first audio electronics manufacturer to producing the world's first commercial CDs. This focused investment in audio R&D ensures you get the latest technology and the highest quality with every listening experience.
